Work To Be Resumed

On The Anaconda, Rabbit Foot and  
White Horse Group Mines For Which  
Large Sums Have Been Offered and Refused

The excellent returns from Messrs.  
Graingers & McIntyre's properties has  
given a fresh impetus to copper mining  
in the White Horse district, and in the  
course of the next two or three weeks a  
force of men will be put to work on the  
Anaconda mine, which has already had  
sufficient development done to prove it  
equally rich as the Copper King.

The group of mines comprising the  
Anaconda, Rabbit Foot and White  
Horse, is owned by Messrs. J.P. Whit-  
ney, A. P. Benton, Ole Dickson, W.A.  
Pucket, Charley Ward and O'Neil. Of  
these the Anaconda is the furthest ad-  
vanced in development, 135 feet of tun-  
nel having already been run, besides

numerous cross-cuts and several shafts  
to a depth of 20 feet. Last June  
\$100,000 was offered and refused for  
the Anaconda and five weeks ago an  
offer of \$150,000 for the Anaconda and  
Rabbit Foot was also declined.

The lode on which these claims are  
located shows an average width of 75  
feet, and assays from picked ore have  
given values as high as \$258 per ton.

At the Anaconda there are now about  
100 tons of ore on the dump, but the  
owners have decided not to ship any of  
it at present, and will wait for the erec-  
tion of a smelter close at hand which  
has every indication of being an accom-  
plished fact during the coming summer.
