PUBLIC NOTICE

Rezoning Application

Lots 2-7 and Lot 12, 24094 LTO in the Louise Lake area

The Yukon government is proposing to amend the Whitehorse Periphery Development Area Regulations (O.I.C. 2013/207) as follows:

- to amend the regulation to allow existing non-conforming lots to be enlarged through either subdivision or consolidation with an existing parcel, to less than the minimum lot size; and
- to allow a zoning designation boundary to follow a new or existing parcel boundary when a survey is registered at the Land Titles Office for an approved lot enlargement or lot consolidation.

The proposed amendment is required to facilitate lot enlargements and consolidations for Lots 2-7 and Lot 12, 24094 LTO in the Louise Lake area.

The amendment will also make the regulation consistent with other development area (zoning) regulations by allowing future lot enlargements to be processed without the need for rezoning and to allow lot enlargements that are less than the minimum parcel size of 6 ha.

Written comments on the proposed rezoning will be accepted until **May 25, 2016**.

RFP 2016-023

Lifecycle Assessment for Energy Resource Options in Yukon Territory

Yukon Energy has issued multiple RFPs over the last six months to assess potential resource options to meet the long-term load forecast (2016-2035). These include options for hydro, wind, geothermal, thermal, energy storage and transmission. Yukon Energy is requesting submissions from qualified consultants to conduct a lifecycle assessment for the resource options considered for upstream activities (e.g., processing, extraction, manufacturing, shipping and construction). The lifecycle assessment will calculate "CO2e" per unit of measure, such as megawatt-hour, litre or kilometre of transmission line. The work is scheduled to start on June 3, with the final report submitted by July 29, 2016.

Sealed bids, clearly marked **"RFP #2016-023 Lifecycle Assessment for Energy Resource Options in Yukon Territory"** will be received up to **4:00:00 p.m. Yukon time, Wednesday, May 18, 2016** at Yukon Energy's corporate offices, #2 Miles Canyon Road, Whitehorse, Yukon.
