**TIPS ON HOW TO WRITE A
CLASSIFIED AD THAT SELLS**

1. Use a **KEYWORD**. This immediately tells the reader exactly what it is you have to sell.
2. Make your description **CLEAR** and **FACTUAL**. State the year, make, model, color, size and tell what condition the item is. Also state the special features.
3. State the **PRICE**. Successful Classified advertisers have learned that the price in an ad helps increase the chances for results.
4. If there's a genuine sense of **URGENCY**, say so. The words, "We're Moving" or "Must Sell Fast" suggests that readers respond immediately.
5. Include your **PHONE NUMBER**. Classifieds get results fast and often generate immediate sales. If you cannot be available to answer the phone at all times, be sure to specify special calling times such as "after 6PM" or "before 11AM".

If you need assistance ask one of our friendly
 AD-VISORS to help you word your ad.

1945 News from the Whitehorse Star
**DAWSONITES LIBERATED BY U.S.
 FORCES IN THE PHILIPINES**

Provost Marshal-General Leech wired from Washington, D.C. on February 21 to Mr. and Mrs. Murdock McCuish in Dawson, Y. T. informing them that their son John and his wife Virginia, had been released by the U.S. Forces from the Japanese internment camp at Santo Tomas, Luzon Island in the Philippines.

Mr. and Mrs. John McCuish were on Mindanao Island when the Japanese captured the Philippines and managed to evade capture for about two years by hiding in the hills before they were forced to surrender.

BURIED IN TRENCH

Two men were buried in a trench yesterday afternoon at the vocational school site when an earth and gravel wall collapsed on them. Most seriously injured was Ronald Burnett of Whitehorse who received a broken leg and a broken pelvis. Vernon Ekland received also a broken pelvis.

When the wall came down, the two men were working close together in the trench being dug to accommodate sewer and water pipes. They were completely covered by the slide but, fortunately, Bennett and White Superintendent Nelson Ford knew their exact location and, when the rescue effort began, he could pinpoint their location and dug them out.

The trench at the point of collapse was approximately 14 feet deep. About the first five feet were frozen ground but beneath that the gravel was loose. Both city fire departments rushed to the scene and also workmen from other parts of the city were called to assist.

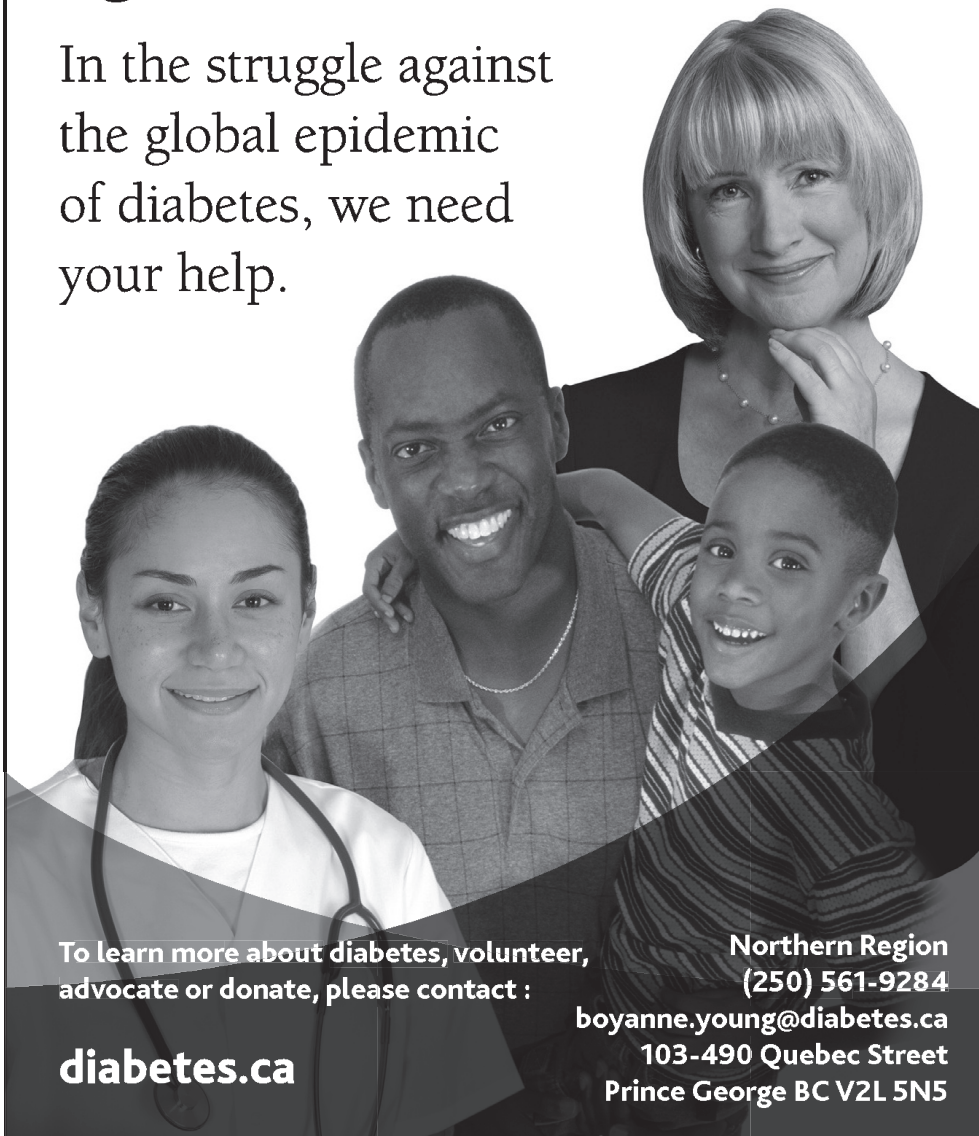

It was Ekland's second trip to the hospital in three weeks. He was just released after a broken ankle healed.
