Homelessness Partnering Strategy: Designated, Aboriginal and Rural and Remote funding streams
April 1, 2015 – March 31, 2017
Closing Date: February 13, 2015– 4:00 pm

HPS Background:
The Homelessness Partnering Strategy (HPS) aims to prevent and end homelessness across Canada. It does so by developing partnerships that contribute to a sustainable and wide range of supports to help those who are homeless or at risk of homelessness move towards self-sufficiency through three separate funding streams.

1) Designated Funding Stream (Whitehorse only):
Designated funds are targeted to local priorities identified in the 2014-2019 Community Plan, and must be cost-matched (directly or in-kind) by other funding partners. Proposals will be assessed according to whether the projects are meeting or working towards the HPS Community Plan priorities, which are as follows:

1. To reduce homelessness through a Housing First approach.
2. To improve the self-sufficiency of homeless individuals/families and those at imminent risk of homelessness through individualized services.
3. To preserve/increase the capacity of facilities used to address the needs of people who are homeless or at imminent risk of homelessness.

2) Aboriginal Funding Stream (Whitehorse only):
This stream funds projects delivered primarily by Aboriginal service providers, and it is also guided by the 2014-2019 Community Plan priorities outlined above. It includes activities that promote inclusion within the Aboriginal community and that are congruent with Aboriginal identity and practices to ensure services are integrated and culturally-appropriate.

3) Rural and Remote Funding Stream (Rural communities only):
Projects that address prevention and reduction of homelessness in communities outside of Whitehorse are eligible for funding. This funding stream does not require funding from other sources, although partnerships are strongly encouraged.

In order to receive an application package including the Proposal Guide please contact:

TIPS ON HOW TO WRITE A CLASSIFIED AD THAT SELLS

1. Use a **KEYWORD**. This immediately tells the reader exactly what it is you have to sell.
2. Make your description **CLEAR** and **FACTUAL**. State the year, make, model, color, size and tell what condition the item is. Also state the special features.
3. State the **PRICE**. Successful Classified advertisers have learned that the price in an ad helps increase the chances for results.
4. If there's a genuine sense of **URGENCY**, say so. The words, "We're Moving" or "Must Sell Fast" suggests that readers respond immediately.
5. Include your **PHONE NUMBER**. Classifieds get results fast and often generate immediate sales. If you cannot be available to answer the phone at all times, be sure to specify special calling times such as "after 6PM" or "before 11AM".

If you need assistance ask one of our friendly AD-VISORS to help you word your ad.

1962 News from the Whitehorse Star

Wolves Attack Horses

Wolves, within a few miles of Whitehorse, caused the death of one horse and severely injured a second during the weekend. The two animals belonging to Douglas Lowe of 609 Alexander were pursued and bitten about the hindquarters at the northwest end of Marsh Lake.

Mr. Lowe found the wounded animals still on their feet but one was so badly injured he had to shoot it. The horses were part of the plans to use next season as a big game guide and outfitter.

He said he did not know how many wolves were involved but found many tracks in the vicinity adding that, "even one wolf can make plenty of tracks."

Whitehorse West Councillor Bert Boyd gave the okay to Game Director J.B. Fitzgerald to put poison bait out on the ice in an effort to stop the mauraders. This approval is necessary within 75 miles of settled areas under the recently-amended game ordinance. Outside this

radius the game director has full authority with regard to poison bait.

Today Mr. Fitzgerald commented his department was carrying out a poison program within the limits of its financial ability.

Game outfitters and guides see this year as a bad one for game in the Yukon bush. With the snow building a firm crust on which the wolves can travel but the game cannot, moose, caribou, elk and deer are easy prey for the carnivores.

Reports from the Peel River area indicate that the pickings are so good for wolves they are killing caribou and leaving them which is a virtually unheard of occurrence.

Wolves over the NWT border were said to be preying on herds with ease this year. One report told of a thousand animal herd literally hemmed in by wolves in the Nahanni country.
