A Freak Snowslide

Everybody in this section of Yukon Territory and in Posey County, Missouri, knows Mr. J.P. Whitney of Whitney & Pedlar. (He always says, "You'll have to show me!") Mr. Whitney has ever been up-to-date in his efforts to make White Horse a modern city with fire-proof buildings, wider streets and plenty of sidewalks. Last November he conceived the idea of adding an extra chimney to his big building and, regardless of freezing weather, engaged a man to do the work. The chimney was built in symmetrical form but, owing to the fact that the weather was not propitious, the mortar failed to stick to the bricks, and become frigid and wholly at home with itself. Previous to the building of the chimney Mr. Whitney had dug a well on the

side of the building where the new chimney was erected and this was covered over with boards. Last Monday ended the checkered career of the new chimney. A large mass of snow had accumulated behind the smoke avenue and on that day decided to move to terra firma. On its way down it picked up the chimney and the whole landed on top of the covering over the well. The boards were light and snow, bricks and mortar went through to the bottom, nothing remaining except the cavity through which it all passed. Mr. Whitney will rebuild his chimney, but he will not do it in cold weather, and is now giving out the story that he has the only well in the Yukon Territory with a chimney in it.
