**A Night's Stampede**

Monday's stage from Dawson brought to White Horse the first news of a rich find of gold on a small creek below Selwin and about seven miles this side of Island Point roadhouse and running into the Yukon from the west bank.

The creek was prospected late last fall by a Frenchman named Mascot, and instead of recording the location at once the prospector waited until he received from below an assay of the ore secured, and this only reached him about ten days ago. Mascot at once staked his claim and a week ago Monday went to Selkirk to have it recorded. The telegraph office at Selkirk is not far from the office of record and – nobody knows how it happened – in some way the people at Selwin were advised of the discovery almost as soon as the claim was placed on record.

There was a rush of gold seekers inaugurated not only from Selwin but from Renton roadhouse and other points along the trail, and

before daylight on Tuesday the entire creek had been staked. One of the drivers for the C.D.Co., was one of the first to hear of the new find and at midnight Monday, after mushing from Renton, staked one of the first claims above Mascot's discovery. By daylight Tuesday 29 claims were staked and as soon thereafter as possible were placed upon record at Selkirk. Mascot had intended to tip the find off to a coterie of his friends as soon as he had recorded his own claim and was much surprised when he returned to the creek and found it looking like a thriving mining camp with two dozen tents put up at intervals along the gulch. Mascot has given out that the gold secured is very rich, going strong at \$18 to the ounce, but has nothing to say as to how much to the pan he secured. He has not as yet reached bedrock, but is well satisfied that he has struck a rich placer claim. The creek has been named Mascot after the discoverer.

1962 News from the Whitehorse Star

## Liquor Tackled

Much publicity has been given lately in speeches, addresses, open letters and finally in Council to the Alcohol and related Health & Welfare problems. We have learned from the Chief Medical Health Officer that a snow-balling lion's share of welfare expenditures, as well as Public Health and Indian Health Services costs are the direct consequence of uncontrolled Alcoholism.

The Commissioner emphasized in his opening address to Council the urgent need for action to ensure better control of the situation but differed widely as to the priority and timing of such action. The entire issue may be tabled for some time and nothing done now despite the build-up over the last year.

If the claims of the Public Health and Welfare offices are true, and anyone with open eyes does not need to study the statistical evidence to know the truth of it, then council must ask itself: What other business can be more important than to tackle this over-riding problem - Alcoholism and its destructive effects?

In an interview with Dr. O. Schaefer, who, with his relentless campaign since fall of 1960 in public and private

talks, articles and interviews, has propagated a growing awareness of the interrelated problems of Alcoholism, social degradation, diseases and delinquency, we asked him to outline again a practical Alcohol control system, which he first proposed last year in a talk given to the Alcoholics Anonymous Association.

### TOP HOSPITAL RATE

Dr. Schaefer shared his remarks with a citation from a 1959 publication according to which Alcoholism, with well over 200,000 victims in Canada, is the nation's 4th greatest health problem, outranked only by mental diseases, cardiovascular diseases and cancer. He pointed out: "In the Yukon Territory, however, Alcoholism is by far the greatest health problem, outranking every one of the other three. This reflects on the higher hospitalization rate of the Yukon Territory - the highest in Canada - the more remarkable as normally with out young population structure, we should have one of the lowest rates in Canada."

# One Quick Turn...

## and it's over for this dog!

You're not doing your dog any favours letting her ride in the back of a pick-up truck. Besides risking eye injury from wind blown debris, dogs are easily jolted out of open pick-ups and often suffer crippling injuries or death.

Use a protective kennel secured to the truck bed or let your best friend ride safely in the cab.

*A message from your local S.P.C.A./Humane Society*
