HELP WANTED**Employment Opportunity**

Yukon College is a small and innovative institution with 13 campuses, 11 of which are located in smaller rural Yukon communities. As the only post-secondary institution in Yukon, we prepare our students to succeed in the North. Grounded in northern expertise and strong partnerships, we are poised to be a leader in Indigenous selfdetermination, climate change and resource development, and soon to be the first Canadian university North of 60 - Yukon University. Come join us as we blaze trails and build a healthy and prosperous north through unique, relevant and inclusive education and research.

Instructor, Heavy Equipment Technician
 Centre for Northern Innovation in Mining (CNIM)
 School of Trades & Technology & Mining
 Watson Lake Campus

Term position from January 2, 2019 to June 21, 2019
 \$40.49 to \$48.20 per hour
 Based 75.0 hours bi-weekly
 Employment Opportunity #: 18.129
 Initial Review Date: October 15, 2018

Yukon College is seeking an Instructor to join the Centre for Northern Innovation in Mining. CNIM provides services to industry and training for students that are unique in the country, thanks to state-of-the-art facilities, mobile classrooms and high-tech simulators. Our close access to working mine sites, reclamation and mineral exploration areas give students real-world experience.

The training offered by CNIM allows Yukon residents, and those wanting to live and work in Yukon, access to a variety of learning opportunities that are nationally recognized and uniquely customized for the North.

With your extensive knowledge and hands-on experience, you will be conducting practical and theoretical training as well as ensuring that equipment and shops are conducive to a quality learning environment for students. In addition, you will maintain the highest safety standards. The ideal candidate will have certification as a Heavy Equipment Technician certification (Red Seal) including extensive experience in an industrial/commercial/mining environment.

Teaching experience and/or teaching qualification would be considered an asset and/or additional certificates of qualification in other mechanical trades would be an asset.

Please visit the departmental website for information on the Heavy Equipment Technician Program: http://www.yukoncollege.yk.ca/programs/view/heavy_equipment

Go to: <http://yukoncollege.yk.ca/about/employment> for more information on all job competitions.

Quoting the competition number, please submit your resume and cover letter to: Yukon College, Human Resources Services, Email: hr@yukoncollege.yk.ca

1959 News from the Whitehorse Star

Triple Tragedy Stuns Territory

Shock and sadness descended upon the territory Saturday, clouding the sunny weekend and bringing grief throughout the Yukon. Dead in a triple tragedy at Pine Lake were Reverend Stanley Watson, 33, of Haines Junction, his father, James Watson 58 and Bill Hough, 34, superintendent of the experimental farm, at Mile 1019.

The trio were drowned on a fishing trip when, apparently, their 12 foot fibreglassed boat capsized. The numbing cold of the water prevented them from swimming to shore and the small boat did not float to provide a place of refuge.

Pine Lake is a few miles from Haines Junction on the Alaska Highway. It is a fishing spot frequented by many Junction residents.

The boat was found in about 12 feet of water, the prow just showing above the surface. It had been powered by a three-horsepower motor. Evidence indicated the men had finished fishing and were about to return to shore. The bodies were recovered by searchers from the Junction.

Funeral services for Reverend Watson were held at Haines Junction at 7:30 p.m. yesterday. Rites for Mr. Hough will be held in Chesterfield, Ontario. A memorial service for the agriculturalist was also held at the Junction.

Masonic rites were held in Whitehorse for Mr. Watson senior at 2:30 this afternoon.

1019 Superintendent

Bill Hough was born August 18, 1925. After being educated at Chesterfield Public School and high school he joined the army. Leaving the army, he entered Ontario Agricultural College where he graduated with a BSc in animal husbandry. After one year with the department of agriculture he returned to University graduating from Cornell University with a MSc in animal physiology.

He spent two years in Ottawa with the civil service then came north in June of 1956 to take the post of superintendent of the experimental farm at 1019

During his term there, he served as magistrate and coroner for two years.

He was a member of the Professional Institute, the Agricultural Institute of Canada and of the Masons.

President of the Community Club in 1957 he was a director of the organization in 1958 as well.

On the threshold of a promising career, his abilities were summed up by Commissioner F.H.Collins who said he was a civil servant of the very highest type, keen minded dedicated and enthusiastic.

1901 News from the Whitehorse Star

The New Gold Strike

The first authentic news to be received from the new strike on Livingstone creek in the Big Salmon country is that brought out by Mr. Leonard Matchett who, though not the discoverer, was one of the first locators on the creek. The discoverers were some former employees of Mr. J.C. Tache, who went into the country last summer and, having found good prospects on a tributary of Livingstone creek, took up claims and started to work to reach bedrock, but the ground was frozen so hard and they encountered so much water that they were unable to accomplish much.

Mr. Matchett is a practical miner of over 20 years experience, and last summer worked on the War Eagle mine in White Horse district. Of the new strike, he says:

“The discovery was made by the LaRose brothers and others, and is six miles below Livingstone. It is seven miles from the gulch to the summit and 15 miles from there to the Hootalinqua. It is the finest glacial wash I ever saw, and I have been engaged in mining for the past 20 years.

“When I left there were 22 claims recorded and as I met quite a number going in on my outward trip, I suppose by this time there are a great many more.

“I washed out some of the dirt on one of the dumps and as a result secured 5 cwt of gold. The gulch is full of large boulders and it is going to take considerable capital and a good deal of hard work to get down to bedrock, but I am fully convinced from what I have seen that the ground will warrant the outlay.

“After I had staked my claim I went down the river about 100 miles to record, but when I reached the post the recorder was absent. I think some effort should be made by the peo-

ple of White Horse to have the recorder’s office for that district located here, as it is the proper and most convenient place to have it.

“The much talked of winter trail from White Horse to the Big Salmon should be built at once. It will save half the distance between the two places and is a very easy way to get in. As near as I can estimate, the distance by the cut-off to Livingstone is 80 miles, while by the way of Hootalinqua it is about 160 miles. The worst part of the shorter route is the first four miles out from La Barge, and consists of a few steep bluffs, which, however, can be easily surmounted by building sidehill grades. The rest of the way is plain sailing until the Hootalinqua is reached, when another grade will have to be made to reach the river. From there on to the mines a good trail has already been built.

“The trade from the Big Salmon country during the coming season is going to be large, and the business men of White Horse ought to get in and work to secure it. On my way out I met a party of 35 men going in under contract to work for Mr. O’Brien of Dawson, and I understand that he intends to increase this force to 80 as soon as he can get things in shape. There are at present about 250 men in the district and in all probability there will be a great many more in a short time. I heard it reported that one company intends to spend \$50,000 in development work during the coming summer.

“At present supplies of all kinds are very high. Flour is \$28 per 100 pounds; bacon 38¢ per pound; ham 50¢; tobacco \$2 and rubber boots \$16 per pair, and very poor boots at that.”

The Whitehorse Star, January 6, 1901

MS lives here.

Multiple sclerosis never hits just one person.

It affects the whole family.

Cousin, we need to talk

We share almost 99% of our DNA. We still have so much to learn from each other. But without your help, deforestation, poaching, and war will wipe us out in the wild in as little as 15 years.
