www.medicalert.caOil From Norman Wells Piped To
And Refined In Whitehorse

Little was it thought when the original "Discovery Well" was drilled in 1928 in the Fort Norman area that, through the exigencies of war, the oil that flowed from there would be piped to Whitehorse, a distance of 595 miles, and refined here. The transportation of men and equipment over a road more than a thousand miles long was one of the major obstacles encountered and overcome. Camps, warehouses and platforms were constructed and prefabricated, barges, tugs assembled and Camp Canol was established.

In June 1942 the U.S. Engineer troops arrived in Waterways, a small frontier town northeast of Edmonton, and the men of the navigation system in Norman Wells on the Mackenzie River. By the summer of 1943 the water system had been well established, in the meantime another route from Dawson Creek, B.C. to Whitehorse on the Alaska Highway had been opened. This pioneer road was completed in November 1942

and converted into an all-weather military highway by October 1943.

As the transportation systems came into operation crews started from Whitehorse and Norman Wells to construct the Canol access road at both ends. This road was completed in December 31, 1943 and in the following February (1944) the first weld was made in the 595-mile pipeline. On April 30, 1944 the official opening of the refinery was fittingly commemorated.

The Canol project and the Alaska Highway are both outstanding demonstrations of the cordial co-operation of the Canadian and United States governments and of the genuine spirit which has existed between the United States and Canadian people for well over a century.

It is at present being operated by the Standard Oil Co. of Alaska for the United States government.

OPERATIONS MANAGER WHITEHORSE, YUKON

ATCO Structures & Logistics is a North American leader in technical services and facilities management for the telecommunications, resource, transportation, utility and defense sectors. Our Joint Venture with the Northern Aboriginal Services Company has an immediate requirement for a Operations Manager.

Under the direction and leadership of the Project Manager, we are seeking an Operations Manager to join our Northwestel project team in Whitehorse, YT. The Operations Manager is responsible for the performance and management of power generation systems (PGS) in the Northwestel operating area.

QUALIFICATIONS

- Technical degree or diploma is preferred; however, other post-secondary or equivalent experience will be considered;
- 5 or more years' experience in operations management is an asset;
- Knowledge of project management;
- Training in applicable safety courses and programs is considered an asset;
- Supervisory experience in a remote northern setting is essential;
- Excellent written and verbal communication skills; high level attention to detail and delivery of high-quality work;
- Ability to adjust to changing priorities and timelines;
- Proficient in MS Word, Excel;
- Much of the work is performed in a normal office environment with exposure to outdoor weather, hot, noisy or cold conditions when working in the field;
- Must be available on call;
- Some travel (air/road) is required

We would like to thank everyone for their application; however, only those being considered for an interview will be contacted.

ATCO Structures offers a competitive pay and benefits package. Qualified individuals are invited to apply on or before October 22 to:

Accounting & Administration Coordinator
ATCO Structures & Logistics Services Ltd
#210-1100 Front St., Whitehorse, Yukon Y1A 6K6
Fax: (867) 667-4820 or e-mail shelly.peters@atco.com

Employment Opportunity

Yukon College is a small and innovative institution with 13 campuses, 11 of which are located in smaller rural Yukon communities. As the only post-secondary institution in Yukon, we prepare our students to succeed in the North. Grounded in northern expertise and strong partnerships, we are poised to be a leader in Indigenous selfdetermination, climate change and resource development, and soon to be the first Canadian university North of 60 – Yukon University. Come join us as we blaze trails and build a healthy and prosperous north through unique, relevant and inclusive education and research.

Instructor, Heavy Equipment Technician
Centre for Northern Innovation in Mining (CNIM)
School of Trades & Technology & Mining
Watson Lake Campus

Term position from January 2, 2019 to June 21, 2019
\$40.49 to \$48.20 per hour

Based 75.0 hours bi-weekly

Employment Opportunity #: 18.129

Initial Review Date: October 15, 2018

Yukon College is seeking an Instructor to join the Centre for Northern Innovation in Mining. CNIM provides services to industry and training for students that are unique in the country, thanks to state-of-the-art facilities, mobile classrooms and high-tech simulators. Our close access to working mine sites, reclamation and mineral exploration areas give students real-world experience.

The training offered by CNIM allows Yukon residents, and those wanting to live and work in Yukon, access to a variety of learning opportunities that are nationally recognized and uniquely customized for the North.

With your extensive knowledge and hands-on experience, you will be conducting practical and theoretical training as well as ensuring that equipment and shops are conducive to a quality learning environment for students. In addition, you will maintain the highest safety standards. The ideal candidate will have certification as a Heavy Equipment Technician certification (Red Seal) including extensive experience in an industrial/commercial/mining environment.

Teaching experience and/or teaching qualification would be considered an asset and/or additional certificates of qualification in other mechanical trades would be an asset.

Please visit the departmental website for information on the Heavy Equipment Technician Program: http://www.yukoncollege.yk.ca/programs/view/heavy_equipment

Go to: <http://yukoncollege.yk.ca/about/employment> for more information on all job competitions.

Quoting the competition number, please submit your resume and cover letter to: Yukon College, Human Resources Services, Email: hr@yukoncollege.yk.ca

*1901 News from the Whitehorse Star***Space All Contracted**

During the past few days the traffic department of the White Pass & Yukon Route has contracted in advance for all the cold storage space on its rail and steamer lines from Skagway to Dawson for the entire season.

The contracts held amount in the aggregate to 1000 tons of freight. This will be chiefly fruits, fresh eggs, poultry, fresh meats, and vegetables.

This is an entirely new business in Alaska transportation annals. The construction of

three new steamers on the upper Yukon by the White Pass company, equipped with cold storage apparatus, was the last step taken in the matter of arranging or cold storage shipments this year by the traffic department.

The steamers equipped in this manner are the Ogilvie, McConnell and Dawson. Each will have a capacity of 20 tons. Skagway News.
