City Man Dies In Cabin Fire

Olav Danielson, 61, died in a motel cabin fire some time yesterday. Apparently Mr. Danielson had been smoking in bed when he fell asleep. His bedding caught fire and he died from suffocation.

Little damage was done to the cabin apart from smoke stains as the limited amount of oxygen kept down the flames. It is thought the fire may have smouldered from midnight until morning. It was discovered by a Tourists' Services employee who spotted the brown, smoke covered window glass.

The fire department was summoned and the dead man was found inside.

Mr. Danielson was not employed at the time of his death. He had been working for Highway Maintenance Established at Destruction Bay.

Born April 21, 1901, he is believed to be survived by one sister, Mrs. Gurd Fotveit, of Setisdalen, Norway.

Coroner Dr. W. R. Buchan indicated no inquest would be held.

1962 News from the Whitehorse Star

BURIED IN TRENCH

Two men were buried in a trench yesterday afternoon at the vocational school site when an earth and gravel wall collapsed on them. Most seriously injured was Ronald Burnett of Whitehorse who received a broken leg and a broken pelvis. Vernon Ekland received also a broken pelvis.

When the wall came down, the two men were working close together in the trench being dug to accommodate sewer and water pipes. They were completely covered by the slide but, fortunately, Bennett and White Superintendent Nelson Ford knew their exact location and, when the rescue effort began, he could pinpoint their location and dug them out.

The trench at the point of collapse was approximately 14 feet deep. About the first five feet were frozen ground but beneath that the gravel was loose.

Both city fire departments rushed to the scene and also workmen from other parts of the city were called to assist. It was Ekland's second trip to the hospital in three weeks. He was just released after a broken ankle healed.
