Space All Contracted

During the past few days the traffic department of the White Pass & Yukon Route has contracted in advance for all the cold storage space on its rail and steamer lines from Skagway to Dawson for the entire season.

The contracts held amount in the aggregate to 1000 tons of freight. This will be chiefly fruits, fresh eggs, poultry, fresh meats, and vegetables.

This is an entirely new business in Alaska transportation annals. The construction of

three new steamers on the upper Yukon by the White Pass company, equipped with cold storage apparatus, was the last step taken in the matter of arranging or cold storage shipments this year by the traffic department.

The steamers equipped in this manner are the Ogilvie, McConnell and Dawson. Each will have a capacity of 20 tons. Skagway News.

BURIED IN TRENCH

Two men were buried in a trench yesterday afternoon at the vocational school site when an earth and gravel wall collapsed on them. Most seriously injured was Ronald Burnett of Whitehorse who received a broken leg and a broken pelvis. Vernon Ekland received also a broken pelvis.

When the wall came down, the two men were working close together in the trench being dug to accommodate sewer and water pipes. They were completely covered by the slide but, fortunately, Bennett and White Superintendent Nelson Ford knew their exact location and, when the rescue effort began, he could pinpoint their location and dug them out.

The trench at the point of collapse was approximately 14 feet deep. About the first five feet were frozen ground but beneath that the gravel was loose.

Both city fire departments rushed to the scene and also workmen from other parts of the city were called to assist. It was Ekland's second trip to the hospital in three weeks. He was just released after a broken ankle healed.
