### 1901 News from the Whitehorse Star

## Now Own the C.D. Co.

E.C. Hawkins, general manager of the  
W.P.&Y. Route, has received advices  
from London and Chicago to the effect  
that a deal for the purchase of the prop-  
erty of the Canadian Development  
company has been put through, to go  
into effect April 1st.The purchase includes ten steamboats,  
all the terminal facilities at White Horse  
and Dawson, namely, warehouses,  
wharves, lighters and other apparatus,  
besides two extensive and complete  
shipyards, one at White Horse and the  
other at Dawson. The ten steamboats in-  
clude the best on the river, namely, the  
Columbian,, Victorian, Canadian,  
Yukoner, Sybil, Bailey, Zealandian, Ang-  
lian, Mary F. Graff and the Joseph  
Clossett.Four other steamboats, clipperbuilt,  
are in process of construction, to be  
ready June 1, and to be melded to thisYukon fleet, namely the Dawson,  
Ogilvie, Hamlin and McConnell, mak-  
ing a total of 14 boats for the passenger  
and freight business between White  
Horse and Dawson.This practically gives the W.P.&Y.  
Route the control of all the waterways  
to the interior as it also controls the  
Atlin route, having purchased what was  
formerly the John Irving Navigation  
Co. operating the steamers Gleaner and  
Scotia and the Taku-Atlin tramway.Speaking of the labor involved in put-  
ting all this vast amount of machinery  
into systematic working order for next  
summer General Manager Hawkins said:"It means a complete reorganization of  
the service on lines tending to secure  
greater efficiency at a minimum of cost,  
which the consolidation of the two in-  
terests under one management will bestpermit. It will admit of greater dispatch  
and better results for both freight and  
passengers."Improvements and innovations will  
be the order all along the line. Tariff  
sheets are now in course of preparation  
with a view to putting all the traffic on  
a strictly weight basis, thus doing away  
with what is known by all shippers as  
the weight or measurement ship's op-  
tion system, which has caused a great  
deal of confusion in the past, as under it  
the merchant was never in a position to  
figure in advance on what the cost  
would be for delivering his goods at nay  
point in the interior."It is also contemplated to substitute  
oil for wood, which, if found practica-  
ble for fuel, will shorten the running  
time of each steamer from 12 to 20  
hours on each voyage. — Daily Alaskan.*The White Horse Star, February 27, 1901*

HELP WANTED

**CPA DEATH TOLL 52**

Canadian Pacific Airline's Flight 21 exploded and crashed last Thursday afternoon on its way north from Vancouver, killing all 52 people aboard. Five Whitehorse residents were among the dead. Seven other northern families suffered losses. It was the first fatal crash on the northern run.

The DC-6B was fifty miles north of Ashcroft B.C. and thirty miles west of 100 Mile House when eye witnesses said there appeared to be an explosion, the tail section dropped off and the plane plummeted into the ground. A pall of smoke was spotted by B.C. Forestry lookouts and a small aircraft dispatched to the scene minutes later. The crash occurred just before five o'clock.

At 4:40, about 15 minutes before the crash, the captain radioed that he was changing course slightly to avoid turbulence. Moments later, the stricken aircraft made three desperate "Mayday" calls to the Prince George airport. Then silence.

The plane left Vancouver at 3:30 p.m. and was scheduled to land at Prince George at 5:20. It had not yet picked up other connecting passengers at Fort St. John.

News of the disaster spread quickly in Whitehorse and anxious families here kept long distance telephone lines jammed for several hours. CPA officials and RCMP officers contacted next of kin as soon as the passenger list had been verified from Vancouver.

**Strangely intact among undamaged trees, wreckage of DC6B as seen from the air.**

*1901 News from the Whitehorse Star*  
**Supt. Tache in Dawson  
Will Investigate Building  
Of Cold Run Trail**  
*Talks Of This Winter's Work On Lake LaBerge*

Mr. J.C. Tache, Superintendent of construction in the public works department of the Yukon, left White Horse for Dawson January 13th and arrived in that city after 11 days travel. Mr. Tache, in an interview published in the Dawson News of the 25th, says:

"The trail between White Horse and Dawson is in fairly good condition and freight is coming through by teams in good time. Quite a number of the roadhouses along the line are not giving the service they should. Something should be done to see that they provide travelers with better accommodations.

"I have come to Dawson to investigate the building of the 15 miles of trail to Gold Run, which was done by Palmer Brothers under contract. The road, I am advised, is not according to specifications, hence my visit to investigate.

"The only public work which I have under way during the present part of the winter is the improvement of the head of Lake LaBerge for summer navigation. Several long dams are being built to confine the waters into one channel and prevent them from longer spreading over the wide area of sand that they now cover. In pursuit of this work I have this winter employed 30 to 45 men, three teams and a pile driver, and have driven 1100 piles. One of the dams is 2400 feet long, another 1400 and a third 400. The shorter one cuts the water off from running behind a small island.

"The dams are filled with brush and stone. The work of filling will begin in March. A large amount of stone has already been hauled. The piles used were cut in the vicinity and are driven 14 to 16 feet in the ground.

"In connection with the camp at Upper

LaBerge we have a mess house, blacksmith shop and other buildings.

"Other proposed improvements on the river have not been authorized at Ottawa. The proposed cut-off from Selkirk to the head of Gold Run would not, I believe, save so much time to those traveling between Dawson and White Horse as a cut-off that would avoid traveling over Lake LaBerge. The lake remains open late and delays travel. The Selkirk Gold Run road would also be quite expensive.

"Work done by my men this winter includes two trails from the White Horse copper district, one six miles long and the other four and a half, both of which are finished to the White Pass railroad.

"The White Horse Board of Trade sent an engineer out to survey a route for a road to the Big Salmon mining district. He reported that a road could be built which would be 49 miles between White Horse and Livingstone creek. The distance by river to the district is 139 miles from White Horse. The citizens of White Horse got up a petition for a road over the route mentioned and I forwarded it to Ottawa without recommendation."

The News reporter must have misunderstood Mr. Tache in regard to his attitude on the Big Salmon road. Mr. Tache was enthusiastically in favor of any improvements looking toward the betterment of White Horse, and when the petition of our citizens for a road to the Big Salmon was placed in his hands by a committee from the White Horse Board of Trade, appointed for that purpose, he signified his intention to them of strongly recommending an appropriation for the same.

**AN ATLIN  
ROAD AGENT**

**Masked Highwayman  
Holds Up a Stage in Real  
Western Style and Gets \$3.55**

Atlin has had a genuine stage holdup. The work of the robber was shockingly crude. His method, or rather lack of it, demonstrated that he was not an expert in the profession, and that he was thoroughly in want of experience.

It happened Monday evening, Sept. 16, about 8 o'clock. Walker's stage was enroute to Pine City from Atlin when a masked highwayman stepped out in the road and at the point of a Winchester commanded the driver to halt. The command was obeyed and the passengers were ordered to get out of the stage and line up with their hands in the air. Four of the passengers, Messrs. D. Patterson, C.H. Dewitt, J. Dillon and Mrs. Nelson took to the woods. The others were Driver Walker, Photographer Draper, T. Shirley, W. Waters, J. Emmett and Miss Maud Biggs.

They had considerable money about them, but most of them managed to lose their purses in the stage before leaving it. The highwayman's order to them, therefore, to throw their money in a pile on the road resulted in only \$3.55 being contributed to the road agent. This he sulkily picked up, and backing into the brush, he disappeared.

The police were immediately notified and vigorous search made for the daring robber, but up to late reports he has not been caught.
