City Resident Makes Polar History

Whitehorse resident Martyn Williams has become the first Canadian to reach both poles of the earth using only skis and a small dog team.

Williams, 44 and his three companions on the International north Pole Expedition were picked up Saturday after six grueling weeks of fighting severe temperatures, driving winds, and tough, unpredictable sea ice.

All four members of the group are South Pole veterans. Australian Mike McDowell 44, accompanied Williams to the South Pole in 1990. Norwegian brothers Sjur, 27, and Simen Modre, 29, traveled to the South Pole in 1991.

Many people have reached both poles without mechanized assistance. Until now, only Briton Robert Swan traveled from South to North.

The group is now resting at the advance base on Ellesmere Island before they return tonight to Resolute Bay, N.W.T.

Tough terrain slowed progress for the first few weeks. However, the expedition traveled more than 25 kilometers a day in the last couple of weeks to make up for last time.

They had to reach the pole by May 12. After that date, warming temperatures cause fog and broken ice, which makes air pick-up impossible.

"But part of it was because they just really wanted to get out ...

Made it! Yukoner Martyn Williams, right, completed the international North Pole Expedition is six weeks along with Mike McDowell and brothers Sju and Simen Modre, at left.

Soak up a little Yukon history.

GRAND PALACE HOTEL

ANOTHER FIRST-CLASS HOSTELRY OPENS ITS
FRIENDLY DOORS TO THE TRAVELLER

The fine three-story building that has been so rapidly rushed to completion by Mr. Racine, on Front Street, opposite the new post office building, opens its doors today for the reception of guests, and will be known as the Grand Palace Hotel. This immense building is admirably situated at the highest point on the lake side of the street, and commands a grand view of the lake and surrounding country. The guests' rooms on the second and third floors, about 20, are all large, well lighted and ventilated, high ceilings, with new and clean furnishings throughout. The floors are double-boarded, inlaid with building paper, as are also the walls, which will make the building a very warm and comfortable one during the most severe weather.

The hotel proper will be under the management of mesdames Lane and Taylor, who have, during the past three months, made a splendid reputation as hostesses by the first-class manner in which they have conducted the Palace Hotel of this city. The traveller who has once been a guest at the latter house will surely find his way to the Grand Palace on his return to Bennett and learns that these ladies are in charge of the place.

The bar in connection with the hotel is controlled by R.B. Alverson & Co., well known to a great majority of our citizens, and their reputation is a good guarantee that nothing but the best of goods in their line, served by the most dexterous and polite mixologists, will be offered to the patrons of this department.

With such people in all departments of the new hotel it cannot fail to become a very popular house.

1920 - Lieut. Crumrine's airplane from "The Alaska Flying Exp." His chronic tire problems were fixed by Whitehorse resident Bert Peterson of the White Pass.

FIRST AIRCRAFT

Whitehorse Paved the Way for Aviation in the North.

For a history of aviation in the Yukon Territory we have to go back to June, 1920, when Capt. H.T. Douglas of the U.S. Air Force and Capt. H.A. Leroyer of the Canadian Air Board arrived in Whitehorse to talk over a proposed international aeroplane flight from Mineola, N.Y. to Nome Alaska. They both came with the authority of their respective governments to make all necessary arrangements for landing places, fuel, supplies, etc. In commenting on the proposed flight the Whitehorse STAR of that day described it as "an event that will go down in history as one of the most daring conceptions of the potentialities of aerial flight that has ever been conceived since the possibilities of a lighter-than-air craft as a means of transportation became, through the inventive genius of man, a certainty."

TORNADO HITS WATSON LAKE

What has been described as being a phenomena in this part of Canada occurred on Wednesday, September 9 between two and 3:00 p.m. when a tornado formed over Watson lake, raced down the far shore opposite the airport and up the bank to dissipate somewhere in the bush by the tank farm. The tornado was accompanied by a short but extremely heavy hail storm with some of the stones measuring three-quarters of an inch in diameter. Pete Koszuk, the only known eye-witness to the forming of the tornado said the water began to swirl and gradually lift off the surface. Evidence of its violence can be seen on the path it took when it struck the lake shore. Poplar, jack pine and spruce trees varying in height 30 to 70 feet and four to 10 inches in diameter were uprooted and piled together like matches. Fortunately the tornado struck only the lake and the trees.

YUKON'S GREAT SHOWING

Yukon Territory's contribution to the Empire and Allied cause
in this war is nothing short of magnificent.

Despite the fact the region is remote and the people are en-
gaged in struggling against primitive and exceptionally obdurate
and severe conditions in pioneering, they have more than held
their own in the war game.

Between four and five hundred men have gone from this
territory direct to the war, meaning practically ten per cent of the
population of Yukon are under arms in Europe. Were the whole
of the Dominion, with its eight million people, to contribute
in like proportion to Yukon there would be 800,000 men, or
just twice as many enlisted from Canada today as there are. ...

The generous and patriotic spirit of Yukon deserves to be
known throughout the Empire and Allied realm. If all the Em-
pire were contributing in like proportion in men and money the
assembled wealth and armies today would be far greater than
they are. But these matters will adjust themselves.

Yukoners will continue to do a mighty share and uphold the tradition that the sons and daughters of the North
are excelled by none in loyalty to the nation and to humanity.
