## NOTICE OF LAND INTEREST REGISTRATION

Kwanlin Dün First Nation's new Lands Act (Nan kay sháwthän Dä'k'anúta ch'e) has come into force, effective October 15, 2020.

Subject only to the exceptions identified below, Part 16 of the Lands Act requires that all interests in Kwanlin Dün First Nation settlement land that are in effect on October 15, 2020 be registered in the Kwanlin Dün First Nation Lands and Resources Register by April 15, 2021. Affected interests include fee simple, allocations, easements, and leases. Please contact the Heritage, Lands and Resources department at 867.633.7800 ext. 128 to submit your interest in registration.

Any interest not registered in the Kwanlin Dün First Nation Lands and Resources Register by April 15, 2021 will be invalid.

The following interests are excepted and do not need to be registered in the Kwanlin Dün First Nation Lands and Resources Register:

- An interest registered under the territorial Land Titles Act; and
- Pursuant to section 5.4.2 of the Kwanlin Dün First Nation Final Agreement, an interest identified as an exception or reservation to which Kwanlin Dün First Nation settlement land is subject.

Call: 867.633.7800 ext. 128

## TAKHINI SPRINGS

Photographer E.J. Hamacher has favoured us with the following description of the Takhini hot springs, the property of Messrs. W.A. Puckett and S.A. Simmons. The springs are distant from Whitehorse about 30 1/2 miles, 14 to the mouth of the Takhini river, 15 miles up that stream to the springs landing and one and a half miles from the river northward to the springs.

The springs are located in a beautiful spot almost level but sloping gently toward the river. The water boils up from a bowl-shaped basin, overflows it at one edge, and runs over the sloping ground until it reaches a deep canyon through which it makes its way toward the river. At the foot of this canyon is a large crescent shaped slough or lake which has an outlet to the river.

The volume of water which flows from the spring would fill a six-inch pipe and its deposits below the springs show large quantities of iron and lime. The temperature of the water is about 120 degrees, Fahrenheit.
