### TORNADO HITS WATSON LAKE

What has been described as being a phenomena in this part of Canada  
occurred on Wednesday, September 9 between two and 3:00 p.m.  
when a tornado formed over Watson lake, raced down the far shore opposite  
the airport and up the bank to dissipate somewhere in the bush by the tank farm.

The tornado was accompanied by a short but extremely heavy hail storm with  
some of the stones measuring three-quarters of an inch in diameter.

Pete Koszuk, the only known eye-witness to the forming of the tornado said  
the water began to swirl and gradually lift off the surface.

Evidence of its violence can be seen on the path it took when it struck the  
lake shore. Poplar, jack pine and spruce trees varying in height 30 to 70 feet  
and four to 10 inches in diameter were uprooted and piled together like matches.  
Fortunately the tornado struck only the lake and the trees.

The **FIRST WHITEHORSE BIG BAND**

#### HOME GROWN BAND

For the first time in the history of  
Whitehorse, music for her annual  
celebration will be furnished this year  
entirely by home talent, our own sil-  
ver cornet band of eighteen pieces.

While R. Unsworth is really the  
father of the Whitehorse Band, he  
having raised the money with which  
the first instruments were purchased  
a year or more ago, it was not until  
J.P. Whitney stepped forward from  
darkness into light and was persuad-  
ed to “work up his lip” and take the  
leadership, that the band was ever  
in reality an organization.
