DAWSON CRIMINAL RE-CAPTURED AFTER A YEAR'S HUNT

SWAN HARRISON, AN INSANE PATIENT ARRESTED IN THE
NORTHWEST TERRITORIES

Swan Harrison, who escaped from the Northwest Mounted police at Selkirk on the Yukon a year ago, has just been captured by members of the same efficient force at a point thousands of miles distant. Harrison has been taken a prisoner in the Northwest territories.

A telegram has been received by Major Wood at Dawson telling him of the capture of Harrison.

When Harrison escaped at Selkirk he was being taken out of the Yukon to New Westminster, B.C. as an insane patient. He had been arrested and convicted at Dawson some time before for stealing, had become insane while in prison and was transferred to the lunatic ward.

While the steamer was lying at Selkirk Harrison made a leap from the boat, and landing partly in the water walked ashore, scrambled away up the bank and ran into the woods before he could be overtaken. He and a number of other lunatics were in charge of Corpl. Stewart on the trip up the river. A short search was made for Harrison, but he could not be found, and the boat proceeded with the remainder of the party.

From traces obtained it is believed he went down the Yukon river and escaped by way of St. Michael and Nome. He is said to be from the States, but how it is that he should wander over into the Northwest Territories is scarcely understood. It was thought at first from the point at which the fellow turned up he must have taken a chance at the famous Edmonton trail and gotten through, but the idea is scarcely credited.

SMELTING CENTRE

Construction of the three big hydro plants in the vicinity of Kluane Chilkoot Pass and Teslin. Estimated out - 500,000,000 horsepower - makes this the largest integrated power yield in the world.

In conjunction with the hydro construction, plans call for erection of smelters and leaching plants to process ores from Frobisher holdings in the Yukon, Northwest Territories, Ontario, Quebec, Greece and southern Rhodesia. Frobisher also has properties under development in Uganda, West Africa, Venezuela, Peru, Labrador, Montana, North and South Dakota.

Details of the plan - official permission for preliminary surveys has already been given - came to light recently and followed by a month rejection of a United States bid to harness the Yukon River system, of which Lac Laberge is a part.

At that time Resource Minister Winters intimated that development of Canadian resources in the area should be left to Canadian enterprise - Frobisher is owned by the gigantic Canadian industrial empire, Ventures Corporation.

YUKON'S GREAT SHOWING

Yukon Territory's contribution to the Empire and Allied cause in this war is nothing short of magnificent.

Despite the fact the region is remote and the people are engaged in struggling against primitive and exceptionally obdurate and severe conditions in pioneering, they have more than held their own in the war game.

Between four and five hundred men have gone from this territory direct to the war, meaning practically ten per cent of the population of Yukon are under arms in Europe. Were the whole of the Dominion, with its eight million people, to contribute in like proportion to Yukon there would be 800,000 men, or just twice as many enlisted from Canada today as there are. ...

The generous and patriotic spirit of Yukon deserves to be known throughout the Empire and Allied realm. If all the Empire were contributing in like proportion in men and money the assembled wealth and armies today would be far greater than they are. But these matters will adjust themselves.

Yukoners will continue to do a mighty share and uphold the tradition that the sons and daughters of the North are excelled by none in loyalty to the nation and to humanity.
