**Taken From the files
of the Whitehorse Star****1898 THE DALTON TRAIL**

305 Miles from tidewater to the river
By William D. MacBride

Visitors to the Yukon and Alaska are always interested in the history of the areas through which they travel. One of these is the route traversed by the Haines Highway, which follows to some extent "The Dalton Trail" of gold rush days 159 miles from tidewater at Haines, Alaska, to Haines Junction. Mile 1016 on the Alaska Highway in Yukon Territory.

From the Archives of the Alaska Historical Library and Museum at Juneau, the Northwest Mounted Police, and photo albums and documents of Henry Dow Banks of Springfield, Mass. on a journey over the Dalton Trail in 1898, a brief history of Jack Dalton and his famous trail...

Work To Be Resumed

On The Anaconda, Rabbit Foot and White Horse Group Mines For Which Large Sums Have Been Offered and Refused

The excellent returns from Messrs. Graingers & McIntyre's properties has given a fresh impetus to copper mining in the White Horse district, and in the course of the next two or three weeks a force of men will be put to work on the Anaconda mine, which has already had sufficient development done to prove it equally rich as the Copper King.

The group of mines comprising the Anaconda, Rabbit Foot and White Horse, is owned by Messrs. J.P. Whitney, A. P. Benton, Ole Dickson, W.A. Pucket, Charley Ward and O'Neil. Of these the Anaconda is the furthest advanced in development, 135 feet of tunnel having already been run, besides numerous cross-cuts and several shafts to a depth of 20 feet.

Last June \$100,000 was offered and refused for the Anaconda and five weeks ago an offer of \$150,000 for the Anaconda and Rabbit Foot was also declined.

The lode on which these claims are located shows an average width of 75 feet, and assays from picked ore have given values as high as \$258 per ton.

At the Anaconda there are now about 100 tons of ore on the dump, but the owners have decided not to ship any of it at present, and will wait for the erection of a smelter close at hand which has every indication of being an accomplished fact during the coming summer.

1902 News from the Whitehorse Star

A Record Breaker

Last fall Supt. Gen. E. Pulham made the assertion that before the winter was over he would break all previous records of fast travel between White Horse and Dawson and last night he arrived from the latter point in a W.P. & Y. Route stage that made the heretofore unprecedented time of 3 days and 10 hours.

Although the early part of the season on the winter trail offered many obstacles for rapid traveling Mr. Pulham did not lose his nerve but went ahead with his work and under his management the W.P. & Y. Route has furnished a regular, rapid and easy, even luxurious, means of reaching the Klondike capital from the northern terminus of the railroad.

For doing this work Mr. Pulham has had every facility that money could procure, and in addition has had the assistance of an exceptionally competent staff of assistants. This end of the line has been well and closely looked after by Assistant Supt. H. Wheeler, while the stage drivers employed have acquired skill through years of experience in the north.

The fastest round trip on record between White Horse and Dawson was that made by Driver Jack

McMillan who returned here a few days ago after an absence of only 8 days and 2 hours.

The management of the W.P. & Y. Route have made special efforts this season to meet the requirements of the interior transportation business. Although their contract only calls for a five day service hardly a day has passed since the road got in good shape but that one or more stages have not left White Horse and a like number arrived. From four and a half to five days are usually consumed on a single trip unless the weather happens to be bad, when it requires a little more time.

The result of this policy of the W.P. & Y. Route has been that they have secured most of the passenger traffic and even those who have gone on other stage lines at reduced rates of fare have kicked themselves, so to speak, before the end of their journey was reached, for the reason that it had taken from a week to ten days longer to make the trip in much less comfortable conveyances, and their extra expenses for the additional time spent on the road have more than equalled the difference of fare between the independent lines and that of the W.P. & Y. Route.

The Whitehorse Star April 9, 1902
