1901 News from the Whitehorse Star

Now Own the C.D. Co.

E.C. Hawkins, general manager of the W.P.&Y. Route, has received advices from London and Chicago to the effect that a deal for the purchase of the property of the Canadian Development company has been put through, to go into effect April 1st.

The purchase includes ten steamboats, all the terminal facilities at White Horse and Dawson, namely, warehouses, wharves, lighters and other apparatus, besides two extensive and complete shipyards, one at White Horse and the other at Dawson. The ten steamboats include the best on the river, namely, the Columbian,, Victorian, Canadian, Yukoner, Sybil, Bailey, Zealandian, Anglian, Mary F. Graff and the Joseph Clossett.

Four other steamboats, clipperbuilt, are in process of construction, to be ready June 1, and to be melded to this

Yukon fleet, namely the Dawson, Ogilvie, Hamlin and McConnell, making a total of 14 boats for the passenger and freight business between White Horse and Dawson.

This practically gives the W.P.&Y. Route the control of all the waterways to the interior as it also controls the Atlin route, having purchased what was formerly the John Irving Navigation Co. operating the steamers Gleaner and Scotia and the Taku-Atlin tramway.

Speaking of the labor involved in putting all this vast amount of machinery into systematic working order for next summer General Manager Hawkins said:

"It means a complete reorganization of the service on lines tending to secure greater efficiency at a minimum of cost, which the consolidation of the two interests under one management will best

permit. It will admit of greater dispatch and better results for both freight and passengers.

"Improvements and innovations will be the order all along the line. Tariff sheets are now in course of preparation with a view to putting all the traffic on a strictly weight basis, thus doing away with what is known by all shippers as the weight or measurement ship's option system, which has caused a great deal of confusion in the past, as under it the merchant was never in a position to figure in advance on what the cost would be for delivering his goods at any point in the interior.

"It is also contemplated to substitute oil for wood, which, if found practicable for fuel, will shorten the running time of each steamer from 12 to 20 hours on each voyage. — Daily Alaskan.

The White Horse Star, February 27, 1901

Whitehorse STAR photo
MARTHA BENJAMIN - 1963

MARTHA BENJAMIN: CANADIAN CHAMP

"Martha beats them all" a STAR headline proclaimed in 1963 when an Old Crow skier and mother of five children became the first Yukoner to win a national skiing title.

Twenty-five year old Martha Benjamin won the senior women's cross country skiing title at the Canadian championships in Midland, Ontario. Her time over the 10 kilometre race was 43.29 minutes. And in 1989, 26 years after that historic event, Benjamin was inducted in the Yukon Sports Hall of Fame. "After all these years, I didn't expect to receive something like this," she said. "I just had it in me that I wanted to do it, and I did it," she said of her win in Midland Ontario.

Benjamin and Ben Charlie were the only two skiers to attend the championships. Charlie ranked 11th in a field of 48. His toughest competition came from a group of Finns from Sudbury who swept the field.

Both skiers brought high credit and distinction (not to mention the publicity) to their community and to the Yukon as a whole. Star correspondent Edith Josie wrote before they left: "I had wire from Mr. Harry at Whitehorse. He said Ben Charlie and Mrs. Martha Benjamin will go to Ottawa for International Olympic Competition for skiers on February 13. Frank Cook will take them out. Everyone is very glad to hear these two will go out long travel. Hope they had good trip. Old Crow is little town and Father Mouchet is training boys and girls for the skiers. Now they even go way out to Ottawa. Sure big surprise for the people in Old Crow."

Mouchet, an experienced ski instructor for the French army, designed a training program which is now called TEST (Territorial Experimental Ski Training). This program strives to stimulate and motivate children to discover themselves, develop self-reliance through a rigorous training schedule and gain self-confidence through a series of tough, but surmountable challenges.

Request for Proposal

TKC Housing Project Management

Ta'an Kwach'an Council (TKC) is seeking proposals from qualified firms/contractors to prepare for the development of new residential construction on TKC Settlement Lands and in the TKC traditional territory, as well as an allocation process for new housing and a housing database/ registry system.

The Request for Proposal (RFP) package includes:

- Description of services required
- General requirements
- Tasks and deliverables
- Project schedule and timeline
- Submission requirements and deadlines
- Evaluation criteria
- Inquiry contacts

Proposals will be accepted no later than 4:00pm MST on Friday, December 3, 2021. Please email ImplementationOffice@taan.ca for the complete RFP package. For more information, please contact Barb Joe, Implementation Officer at (867) 334-3623.

TKC reserves the right to cancel this RFP for any reason without liability to any proponent or to waive irregularities at their own discretion. A proposal may be withdrawn by written notice prior to the date and time set for closing time for receiving proposals.

Ta'an Kwach'an Council,
117 Industrial Road, Whitehorse, YT Y1A 2T8

YESAB
Yukon Environmental and
Socio-economic Assessment Board

PUBLIC COMMENT PERIOD OPEN

Proposed Faro Mine Remediation Project

The Executive Committee of the Yukon Environmental and Socio-economic Assessment Board (YESAB) invites the public to review and comment on the above project proposal. The project is subject to a Screening by the Executive Committee of YESAB under the Yukon Environmental and Socio-economic Assessment Act (YESAA).

PROJECT:	Faro Mine Remediation Project (project number 2019-0149)
PROJECT DESCRIPTION:	<p>The proposal for the Faro Mine Remediation Project consists of consolidating and covering ore, waste rock, and tailings, re-vegetation, diverting clean water away from contaminated sites through diversion channels, collecting and treating contaminated water and adaptive management.</p> <p>The project includes two main phases; active remediation and long-term operations and maintenance. An approach called stabilize in place will be used for the remediation of the Site, keeping the tailings and wastes in the same location and ensuring that they are stable to protect people and the environment.</p>
PUBLIC COMMENT PERIOD:	November 18, 2021 – January 31, 2022
ACCESS TO PROJECT PROPOSAL:	An electronic copy of the Faro Mine Remediation Project Proposal is available through the YESAB Online Registry (YOR) at www.yesabregistry.ca (search project 2019-0149)
SUBMIT COMMENTS:	A plain language summary of the Project, assessment timelines and details on how to submit comments can be found at yesab.ca/faro-remediation . Comments can be submitted through the YESAB Online Registry (www.yesabregistry.ca) or by contacting the Executive Committee at the YESAB Head Office.
MORE INFORMATION:	YESAB Head Office / PH 867-456-3265 or toll free 1-866-322-4040 / E-Mail yesab@yesab.ca

MOOSE CALF
'ADOPTS' MAN
AS ITS MOTHER

Curt Mintz huddled in the bush with his two dogs for 20 minutes waiting for the cow moose to attack.

"There's no way you can come between a cow and a calf and live," Mintz said in an interview Monday. "I'd rather meet a grizzly."

But there was no attack.

Instead, Mintz became the adopted mother to a three-day-old female moose calf that now lives at the Yukon Game Farm on the Takhini Hot Springs Road.

Mintz came upon the moose on June 2 while strolling through the woods about four kilometres from his cabin on the Alaska Highway near Whitehorse.

"I heard it first, and I thought it was a bear, so I just dived down and grabbed the two dogs and held them.

"I knew whatever it was didn't hear me, 'cause it was making too much noise.

"When I saw it was calf sitting there, I was more worried. I thought, 'I came between a cow and a calf, I'm in really big trouble,' I stayed down there for about 20 minutes.

"I circled around the thing and saw it was a calf moose. So then I snuck up on it and within 10 feet, it heard me. It started crying just like a little baby."

That's when he realized it was alone.

The calf was probably a twin and left behind by its mother, Mintz said. If the mother had been shot, he said, the calf would have stayed with the mother and the hunters would have gotten it.

"It wouldn't have lasted overnight. There's no doubt about it. It's like Grand Central Station out there for coyotes."

He stroked the calf, grabbed it, put it on his shoulders and marched four kilometres back to his cabin with it.

"After about maybe an hour or two, it figured I was its mother. If I walked away from it, it would start crying."

The calf wasn't afraid of people, he said. It liked his dogs, his friend's cat, and gave his guests big moose-lip kisses.

It would cry to eat, lay down, and go outside because it wanted Mintz to be closer to it.

It was three days old, so it couldn't follow him far. It would walk for a while, then stop and cry when Mintz continued.

"I entertained thoughts at one point in time of keeping it," Mintz said. But he decided it would be better for the moose if it went to the game farm. Danny Nowlan, owner of the Yukon Game Farm, is an old friend of Mintz's father.

Nowlan has had a bull moose for about 10 years, said Mintz, and he hasn't be able to find a cow.

So, this could be the beginning of a Yukon moose family bred in captivity.
